SOCIALSTREAM LOGO GUIDE

A bold S on a 9:16 phone that leans in at 15°; its foot is sliced off at the same 15° as the A in SOCIAL. Every cut and lean in the logo is 15°. Always use the files; never rebuild the logo.

VERSIONS

Horizontal is the default; stacked for square formats and shirts; the phone alone where the name is already there (profile pictures, favicon, the corner of a reel). Light versions (Night + Deep Stream) go on cream or white, dark versions (Cream + Stream Blue) on night blue or calm, dark photos.

CLEAR SPACE

Keep at least **x** clear on every side: x is the cap height of SOCIAL. For the phone alone, x is half the phone's width.

MINIMUM SIZE

Version	Screen	Print
Horizontal	140 px wide	35 mm wide
Stacked	80 px wide	20 mm wide
Phone	24 px; small cut below 32 px	6 mm, small cut
Favicon	16 px: web/favicon.*	–

COLOUR

Night
#05070F
RGB 5 7 15 · CMYK 67 53 0 94*
Dark grounds; the logo on light

Cream
#F1EEE6
RGB 241 238 230 · CMYK 0 1 5 5*
The logo on dark; light grounds

Stream Blue
#7FA1C4
RGB 127 161 196 · CMYK 35 18 0 23*
STREAM on dark grounds

Deep Stream
#40658C
RGB 64 101 140 · CMYK 54 28 0 45*
STREAM on light grounds

* CMYK values are plain conversions from RGB: have the printer proof them with their profile. Pantone matches are not set yet; choose them from a physical guide at the first print job.

TYPEFACES

A SOCIAL MEDIA MEGHALT.
Az érdeklődés vette át a helyét.

Montserrat for headlines: ExtraBold caps for statements, Light for the second voice. Plus Jakarta Sans for body text. Both are free (SIL Open Font License). The logo's letters are custom outlines based on Montserrat (the sliced A, S terminals cut at 75°, an M at exact 60°), so the logo can't be typed.

WHICH FILE

source/	SVG masters, light and dark: every lockup, the symbol, its small cut, the favicon drawing
digital/	transparent PNGs (512–2400 px); one-colour SVGs in black, white, cream and night
web/	favicons (ico, svg, 16–48 px), app icons, webmanifest, <head> snippet
social/	1080 px profile pictures (night, cream) and a stacked square
print/	vector PDFs (RGB): horizontal, stacked, symbol in light, dark, black, white

PLEASE DON'T

Don't stretch or squash | Don't straighten the phone | Don't mirror it | Don't recolour it | Don't put the light version on dark | Don't retype it in a font

No shadows, outlines, gradients or effects. Don't rearrange or resize the parts of a lockup. On busy photos use the phone alone or a calm area.
